Thomas Spinelli

Claims 1-44 are present in the above-captioned application and have been subjected to restriction under 35 U.S.C. § 121. Specifically, the Official Action avers that the following inventions are present in the claims:

Group I, Claims 1-9 and 18-28 are drawn to a method for manufacturing a test piece comprising the special technical feature of fixing a specific binding substance;

Group II, Claims 10, 11 and 29-41 are drawn to a product comprising the special technical feature of a fixed specific binding substance; and

Group III, Claims 12-17 are drawn to an examination method of using a test piece comprising the special technical feature of supplying a labeled examination substance.

It is the Examiner's position that the inventions listed as Groups I -III are distinct from each other.

In response to the Examiner's requirement for restriction, Applicants elect to prosecute the subject matter of Group II, Claims 10, 11 and 29-41. However, Applicants reserve the right under 35 U.S.C. § 121 to file one or more divisional applications directed to the non-elected subject matter in this application.

In view of the foregoing, an examination on the merits of the elected claims, at an early date, is earnestly solicited.

Respectfully submitted,

Thomas Spinelli
